EDUCATION

Bachelor of Technology in Information Technology 2022 – 2026
JSS Academy of Technical Education, Noida (AKTU) Noida, India

Class XII (PCM with Computer Science) 2021 – 2022
Rani Laxmi Bai Memorial School (CBSE) Lucknow, India

Class X 2019 – 2020
Rani Laxmi Bai Memorial School (CBSE) Lucknow, India

SKILLS

Languages: Java, JavaScript (ES6)
Stack: MERN (MongoDB, Express.js, React.js, Node.js)
Frontend: React.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Material UI
Backend: Node.js, Express.js, RESTful APIs, MVC Architecture, CRUD Operations, Middleware, Asynchronous Programming, JWT Authentication, Multer
Database: MongoDB, Mongoose, MongoDB Atlas
AI: Generative AI, Cohere API, LLM Integration, Prompt Engineering, NLP
Tools: Git, GitHub, Postman, VS Code, AWS

TECHNICAL PROJECTS

Notex – Full Stack Notes Application

Full-Stack Development

- Developed a full-stack MERN notes application using **MVC Architecture** with **7+ RESTful API** endpoints, **CRUD** operations, **JWT authentication** and a **RESTful API** backed by **MongoDB** for secure note management.
- Enhanced backend reliability and performance optimization by implementing Upstash Redis rate limiting, protecting **general APIs with 100 requests/15 min/IP** and **AI endpoints with 10 requests/hour/user** to stop abuse.
- Engineered a responsive **React.js** interface with **Tailwind CSS** comprising **10+ reusable UI components**, optimized for desktop and mobile devices.

NeuralLink AI: Note Architect

AI & Web Development

- Integrated an **AI-powered note generation platform** that converts unstructured study material into organized, detailed summaries.
- Utilized **cloud storage** and **intelligent search** enabling quick retrieval of generated notes.
- Spearheaded the design of reusable **React.js** components and responsive layouts using **Node.js**, boosting user experience across devices by **20%**.

ResumeIQ – AI-Powered Resume Screening Platform

AI & Full-Stack Development

- Designed and implemented a **MERN full-stack** application leveraging AI for **resume-job description matching**, reducing recruiter screening time by **25%** through automated candidate ranking.
- Built **12+ RESTful API endpoints** using **asynchronous programming (async/await)** for resume upload, parsing, authentication, input validation and AI evaluation.
- Implemented a **PDF parsing pipeline** capable of processing multi-page resumes with robust validation and exception handling.
- Developed a responsive recruiter dashboard displaying **AI-generated compatibility scores**, **candidate rankings**, and **actionable hiring insights**.
- Secured backend services using environment variables, input validation, and **Postman API testing**, improving deployment security and application reliability.

CERTIFICATIONS

- AI for Business Professionals** – HP LIFE online course 2026
- Logical reasoning in the AI Era** – HP LIFE online course 2026

EXTRA-CURRICULAR ACTIVITIES

- Graphic Design:** Freelance designer for social media assets, using Adobe Photoshop for high-impact visual storytelling.
